

U.S. Serial No. 09/863,092
Amendment Under 36 C.F.R. 1.116 dated March 23, 2004
Reply to Final Office Action of Dec. 23, 2003

Amendments to the Claims:

This listing of claims will replace all prior versions and listings of claims in the application.

Listing of Claims:

Claims 1-10. (Canceled)

Claim 11. (Previously presented) A toy sled comprising:

(a) a body having a top surface and a bottom surface, the top surface adapted for receiving a plurality of riders thereon, the body further having a handle generally planar with the top surface and the bottom surface;

(b) the bottom surface defining a first scooter engagement recess including a first attachment mechanism receptacle centrally positioned in the first scooter engagement recess, and a second scooter engagement recess including a second attachment mechanism receptacle centrally positioned in the second scooter engagement recess, the first and second scooter engagement recesses longitudinally aligned, the first scooter engagement recess adapted to releaseably receive a first scooter comprising a base and a plurality of wheels rotatably attached to the base, and the second scooter engagement recess adapted to releaseably receive a second scooter comprising a base and a plurality of wheels rotatably attached to the base; and

(c) a first attachment mechanism for removably securing the first scooter to the first scooter recess using the first attachment mechanism receptacle and a second attachment mechanism for removably securing the second scooter to the second scooter recess using the second attachment mechanism receptacle.

Claim 12. (Canceled).

Claim 13. (Previously presented) The toy sled according to claim 11, wherein the attachment mechanism comprises a bolt.

U.S. Serial No. 09/863,092
Amendment Under 36 C.F.R. 1.116 dated March 23, 2004
Reply to Final Office Action of Dec. 23, 2003

Claim 14. (Original) The toy sled according to claim 11, wherein the body comprises a polymeric material.

Claim 15. (Original) The toy sled according to claim 14, wherein the polymeric material is polyethylene.

Claim 16. (Previously presented) The toy sled according to claim 11, wherein the body further comprises a second handle generally planar with the top surface and the bottom surface.

Claim 17. (Original) The toy sled according to claim 11, wherein the body has a first end and an opposite second end, the first end having a connector and the second end having a connector receptor.

Claims 18-22. (Canceled)

Claim 23. (New) The toy sled according to claim 11, wherein the first scooter engagement recess and the second scooter engagement recess have a generally square shape.

Claim 24. (New) The toy sled according to claim 16, wherein the first handle is positioned at a first side of the body and the second handle is positioned at a second side of the body opposite the first side.
